Jet Lag Massage

A particular favorite with our globetrotting business executives. This massage consists of equal parts aromatherapy massage, foot and hand reflexology – all designed to improve circulation, aid digestion and relieve the fatigue of jet lag.

Aromatherapy

This massage focuses on the alignment of the spine. It is designed to release blockages and align energy throughout the body. Drops of organic essential oil fall like rain onto the spine and then are massaged in, using a feathering technique. This is a perfect way to balance and detoxify the body.

Reflexology

The sole focus of this treatment is to stimulate the pressure points in the feet and hands that correspond to the organs and structures of the body. This treatment will bring relief from stress and tension, and help release the body's natural healing energy.

Swedish Massage

A relaxing massage utilizing classic Swedish-style strokes with moderate pressure. Stiffness and fatigue are alleviated while improving circulation.

Sports Massage

Ideal for tense and sore bodies. An invigorating massage to assist with sport performance and recovery time.
